

Local Smoking Cessation Workshops Coming to Your Communities, Sponsored by Pfizer

Smoking cessation workshops, led by certified Tobacco Treatment Specialists, are coming to communities across the country for people who want to learn about quitting smoking. The free, hour-long workshops can accommodate as many as 20 people at a time and include presentations from a former smoker who quit with a prescription treatment option and support. These workshops provide attendees with a non-judgmental environment where they can learn about tools (e.g., plans and treatment options) to help them make a quit attempt.

Please see below a list of May workshops near you*. These smoking cessation workshops are being offered by Pfizer Inc. Callers can register for workshops in their area by logging onto www.freequitclinic.com or calling **1-888-866-0843**. *NOTE: Callers must register their interest to attend.*
