DHD2 Needs You – Consider Volunteering as a Health Care Worker!

In an effort to plan for what likely will come with COVID-19 spreading to Northeast Michigan, District Health Department No. 2 (DHD2) is reaching out to local residents and asking them to consider volunteering. As we face unprecedented times, a vital part of planning is to recruit volunteers to supplement our health care workforce. We are asking for your help to meet these needs.

District Health Department No. 2 is working to build a medical response capability through the help of local Emergency Managers. Through this capability, we will be able to enhance certain levels of care to citizens affected by COVID-19. This capability includes volunteer health care and medical professionals who are willing to help our communities or facilities to provide patient care, if needed. Specifically, we are looking to recruit volunteers in the following areas:

- Clinical (physicians, advanced care providers, nurses, EMS)
- Clinical Support (pharmacy, imaging and respiratory care)

If you are interested in volunteering locally, please send an email titled “COVID-19 Volunteer” to healthed@dhd2.org or call 1-800-504-2650. You will be asked to fill out an application, verify credentials and pass a background check. As we need your help to respond to the evolving crisis, you will be vetted then onboarded prior to assignment.

Thank you for your commitment to protecting the health and well-being of all Michiganders.
