MEDIA RELEASE  

Possible COVID-19 Exposure Locations Announced  

District Health Department No. 2 (DHD2) would like to alert the general public of a possible COVID-19 exposure location. The only time DHD2 will alert the public to specific location(s) where an individual who has tested positive has been is when the contact-tracing team are unable to contact all of the individuals who may have been present (for example: larger facilities). DHD2 wants to make the public aware of location(s) that may have allowed for low risk exposure, therefore, making individual identification difficult. Individuals who were present at the listed Mio location(s), at the designated time, have the potential for exposure:  

- Family Fare: June 23, 2020 11:45 a.m. – 12:30 p.m.  

Individuals should monitor for symptoms consistent with COVID-19. If they do not develop symptoms within 14 days of these dates, there is nothing to be done. Those that develop symptoms within 14 days of these dates should contact their doctor and consider COVID-19 testing.  

While this news may be unnerving for some, it is why we continue to urge residents to:  

- Wear a mask when in public  
- Maintain social distancing  
- Wash your hands frequently for at least 20 seconds  
- Avoid touching your face  
- Disinfect commonly touched surfaces  

Denise Bryan, Health Officer at DHD2 states, “We cannot over-emphasize the importance of staying home when you are feeling any symptoms of illness. The continued rise in cases and ongoing community spread in our area serve to remind us how imperative it is that we follow all State and local recommendations. Everyone must do their part to prevent further spread; continue to wear face coverings when in public spaces and practice social distancing and good hand hygiene.”
